The Sunday school wasn't quite up to the "boiling point." Only 94 were present. There was a fine spirit in all the services. Two fine young women came into the church.

B. Y. P. U. got off to a late start but came on to a good finish. Group 4 leads next Sunday evening.

The ladies of the Missionary Society are certainly very thankful for the splendid cooperation and patronage at their Easter bazaar and dinner.

We desire that all departments of the church will remember that Decision day is to be observed soon. Let us pray and work for this day's success. Every day should be for us a Decision Day. But let's make this one speak for us as a church.

This year's class is twenty per cent larger than any previous class ever graduated from the University of Missouri. The most notable increase is in the school of journalism which sends out 71 embryo editors, the largest of any previous class being 48.

In the list of graduates are eight from Linn county, two from Browning, three from Brookfield and three from Laclede. Those from Laclede are Ruth L. Doak, Ruby Walker and L. S. Whitaker. From Browning, H. W. Atkins, and Geo. P. Bailey; Brookfield, Kathryn S. Burch, Hora M. Hill and A. B. Rittenhour.

#### Ray As Amateur Sleuth

Charles Ray plays a small-town lad with a longing to become a detective in his new Thomas H. Ince picture, "A Village Sleuth," in which he will be seen at the Laclede theatre Saturday night. As the would-be Sherlock Holmes, Charlie gets his ideas of detecting out of such classics as Nick Carter and has a completely equipped "office" out in his father's barn. A full line of disguises, an antiquated revolver, and a bull's eye lantern are just a part of his tools. But they are sufficient to enable him to solve a real mystery and win the girl in the case.

"A Village Sleuth," was written by Agnes Christine Johnston and Winifred Westover is the leading woman. It is a Paramount.

#### Hall's Catarrh Medicine

Those who are in a "run down" condition will notice that Catarrh bothers them much more than when they are in good health. This fact proves that while Catarrh is a local disease, it is greatly influenced by constitutional conditions. HALL'S CATARRH MEDICINE is a Tonic and Blood Purifier, and acts through the blood upon the mucous surfaces of the body, thus reducing the inflammation and restoring normal conditions.

All druggists. Circulars free.

F. J. Cheney & Co., Toledo, Ohio.

Much Lower Prices

We can, and do, make much lower prices than our competitors for the following reasons: 1st, we buy material in large quantities and get extra special discounts, while they order one pair at a time and pay about twice as much. 2nd, we buy our material in either rough or semi-finished condition and do all the special grinding ourselves, while they have to pay a high price for all this work. 3rd, if a glass proves to need some change after having been worn a few days, we step into the grinding room and re-grind it without cost, while they must throw it away and order a new one. Of course they must charge extra to begin with to cover this loss.

DR. PALM "The man who grinds a million kinds" CHILLICOTHE

We give our readers a cut of the handsome new hospital building which the Methodist Episcopal church is now erecting in St. Joseph, Missouri, on a most commanding site, corner of Eighth and Fariaon streets, opposite the First Methodist Episcopal church. When fully completed this building will cost approximately \$7,500,000.00; with bed capacity for 225 patients, and it will be among the very best hospital buildings in the country. The building will be what is known as a fire-proof building, and will represent the very last word in hospital construction; including X-ray and pathological laboratories. It is planned as a great community affair, to serve all communities within reach of the Missouri conference. Of course Laclede will do its share toward the completion of the magnificent enterprise which is badly needed in northern Missouri.

### Pay Your Bills by Check

One of our customers came into the bank not long ago and asked to see a certain check which he had paid in settlement of a business account. Through unintentional error he had not received proper credit for the amount.

He was given the check and with it proved that the bill had been paid. He was given credit for the amount because the check with the proper endorsement was accepted as a receipt. A checking account is the surest safeguard against paying an obligation a second time. We invite you to call and let us explain more fully the advantages of a checking account.
